

Hydraulic submersible pumps

Our 'HS Pumps' are designed for working at greater depths and include a choice of solids, drainer, high head or chopper pumps.

50mm pumps are supplied in cast iron for greater durability.

Equally efficient for use with:

- Clean water
- Water with fine or large solids
- Water with rags and fibres
- Raw and screened sewage

Our customers include those in the following industries: construction and civil engineering, water and wastewater, ground stabilisation and piling, municipal, industrial, oil spill recovery and pollution control.

D - Drainer, H - High Head, B - Borehole
