

Hydraulic submersible power pack

Our 'HS Pumps' are designed for working at greater depths and include a choice of solids, drainer, high head or chopper pumps.

Options include multiple hydraulic circuits, up to 100m hydraulic hoses, 24hr running and emission compliant engines. These electric start diesel driven hydraulic power packs fully protected by an automatic shutdown system.

The hydraulic system can run on synthetic biodegradable or vegetable oil which significantly reduces harmful environmental pollution. The hydraulics incorporate a large return filter ensuring that any contaminants are captured and the fuel tank has flushing panels and a drain facility.

Equally efficient for use with

- Clean water
- Water with fine or large solids
- Water with rags and fibres
- Raw and screened sewage
- Sludge or slurry

Standard build	Deutz Super Silent - RENTAL ONLY	
	Metric	US
Length	260 cm	102 in
Width	142 cm	56 in
Height	221 cm	87 in
Dry Weight	2750 kg	6063 lbs
Gross Weight	3017 kg	6651 lbs
Sound Power	Awaiting test	
Sound Pressure @ 1m (3 ft)	Awaiting test	
Sound Pressure @ 7m (23 ft)	Awaiting test	
Engine	Deutz TCD3.6	
Emission Rating	Stage IIIB	-
Engine Max Speed	2000 rpm	
Fuel Tank Capacity.	320 lt	84 US gal
BEP - Fuel Consumption	lt/hr depends upon pump	US gal/hr depends upon pump

Wet Ends available as Optional Extras

HS200D - Drainer

Seldredge (SC / C)

Please see the specific Data Sheet for each of these pumps, which will show technical information as well as the performance curve.

Optional Extras

- Training
- Genuine parts kits
- Valves / Fittings
- Pump accessories
- Hose / pipework
- Auto stop/start control panels
- Pump telemetry
- Oil drain kit
- Tanks & filtration
- Pipe stoppers
- Chalwyn valve & spark arrestor
- HS pumps - see right
