

Stay in control

You can monitor your pumps via the secure online SelWatch portal, which allows you to check your pump's performance in any location, and sends text and email alerts straight to your device.

SelWatch from Selwood.

Monitoring your pumps so you don't have to.

SELWOOD

Market leaders in pumping solutions

Introducing SelWatch

**A new remote cloud-based monitoring tool
for your Selwood pumps.**

SelWatch makes it easy to monitor pumps off site, and to troubleshoot potential issues remotely from your laptop, phone or tablet.

Monitor your pumps 24/7

SelWatch lets you monitor your pumps 24/7 and sends alerts to you directly if there are any changes to your pump and onsite status.

See your pump's location and when and how it's being used - as well as monitoring your pump's fuel levels, engine temperature and engine speed without having to visit the site.

01

The benefits of using SelWatch

SelWatch diagnoses problems in real time so that they can be fixed as soon as they happen, limiting downtime and saving you money.

With our 24/7 monitoring option, SelWatch also keeps us in touch. Should there be any maintenance issues with your pump, the Selwood team is notified as well. So by the time you call, we're already en route!
